RetURN.org

This is your RetURN.org ID. Follow the directions below to set it up.

Not clipped here? Your provider may have already put it on or inside your urn.

BECAUSE SOME THINGS SHOULD NEVER BE A MYSTERY.

Make sure someone always knows what you wanted with a RetURN.org ID.

Their urn may outlive you. Fortunately, you have a RetURN.org ID.

A RetURN.org ID tells whoever inherits the urn whose ashes are inside and what should be done with them in the event you aren't around to answer.

Without opening the urn, whoever has it can learn:

- That it holds cremated remains
- Whose they are
- Their wishes for their care

How to Set Up Your RetURN.org ID Profile

1. **Activate the RetURN.org ID.**
Using the camera on your phone, scan the QR code on this sheet, or visit RetURN.org/activate. Enter the RetURN.org ID to activate it.

2. **Add profile information.**
Add the name of the person whose cremated remains the RetURN.org ID will identify, along with any wishes or details someone who finds the urn should know. Setting it up for yourself? Add your own information and wishes. You can update the profile later.

3. **Attach the RetURN.org ID to your urn.**
Remove the backing from your RetURN.org ID and press it firmly onto the urn for 30 seconds. The adhesive reaches full strength in about 48 hours. Your funeral or cremation provider may have done this for you.

WHERE TO PLACE THE RETURN.ORG ID

Your RetURN.org ID is designed to last more than 100 years. Place it somewhere discreet but easy to find, such as the bottom of the urn.
